

# DS Race Nights - Photobooth Guide

Our modern photo booth has a stylish glossy black finish and top of the range specification offering the very latest in digital photography and dye sublimation photo printing technology.

*"Also included is an internal built in touch screen display, high end professional digital camera and photographic lighting system that produces perfect prints every time"*

The booth delivers near instant stunning 6" x 4" full colour or black and white prints; you will without doubt be hiring the ultimate photo booth!

## Print types & style layout personalization

Your 6" x 4" photo booth print style comes with one main image and a row of three additional thumbnail style images. This format allows for prints with extra personalization logos and text of your choice.

**When personalizing your photo booth prints you can add your name, event type and function date.**

## Green screen photo booth background magic

*"Green Screen technology; this effect is used on TV and in movies allowing for your photo booth background to be changed, showing the background of your choice"*

Once your guests have entered your booth they can see the chosen background on the booths internal touch screen display.

**Helping assist your guests to interact in different poses with the chosen background.**

Green screen feature can take you around the world, show animals or friends in fact anything you can provide in a digital image format, let your imagination run wild, where will you go who or what will you choose for your photo booth background?
